Spatial Generalized Linear Mixed Models with Application to Prevalence Mapping

Xiang-Yun Huang   Zai-Xing Li

June 12, 2017

Department of Statistics, School of Science
China University of Mining and Technology,Beijing

CUMTB

Outline

1. Introduction (Motivations and goals)
2. Literature reviews
3. Geostatistical model (SGLMM)
4. Computing details and simulations
5. Real data analysis (Applications)
6. Discussion

simulations

Results

1. Introduction (Motivations and goals)
2. Literature reviews
3. Geostatistical model (SGLMM)
4. Computing details and simulations
5. Real data analysis (Applications)
6. Discussion
